

James R. Colston  
2622 Westwind Dr.  
Corinth, TX 76210

Mr. Colston is a founding member of the Hope for Michael Foundation and served as president the first six years.

He has worked as a project manager for Landmark General Contractors, Inc. since 2007. His work duties include bidding and managing the construction of restaurants. In addition, he does the marketing for Landmark.

Prior to joining Landmark, Mr. Colston served in a similar capacity at other companies.

Personally, Mr. Colston has been married for 23 years and has children ranging in age from 21 to 8. The drive to form the foundation came from the early struggles of his oldest, Drew, as he was in and out of the hospital constantly as an infant. He remembered how difficult it was to deal with a child with a disability (Drew has Down Syndrome and was born with complete tracheal rings) and balancing that with need to have a normal life outside of the hospital.
